WELCOME TO THE NEW WAY OF LEARNING!

HISTORY

Advanced Solutions Technical Institute, formerly Advanced Solutions Institute, has been in operation since 2001. Our journey commenced with the initiation of four (4) programs, and today, we provide an extensive array of over two hundred (200) programs ranging from certificate to post-graduate levels, encompassing various technical and business domains.

ASTI holds international accreditation from various awarding bodies such as: Accreditation Council of Trinidad and Tobago (ACTT) as a registered institution and local recognition and program accreditation, Accreditation Service for International Schools, Colleges and Universities (ASIC) with which we hold institutional accreditation, EduQual as a registered center.

Throughout our years of operation, we have formed strategic alliances and served many distinguished organizations such as the Telecommunications Services of Trinidad and Tobago Limited (TSTT), Cable and Wireless (St. Lucia), Dominican Electricity Services Company Limited, Trinidad and Tobago Electricity Commission (T&TEC), Division of Education (Tobago), National Gas Company (NGC), Digicel, Trinidad and Tobago Coastguard and the Trinidad and Tobago Regiment.

ASTI extends the opportunity for small to medium institutions to collaborate and deliver internationally recognized programs from our repertoire within their respective regions. This collaboration ensures that their students receive the same high educational standards provided to our students, whether they are studying locally or internationally.

Globally recognized

ASTI offers internationally accredited qualifications through various partnerships with organizations, we aim to provide world-class education to all our students.

PROGRAMMES

Our programmes are holistic and crafted to empower students to initiate their educational pursuits at their current proficiency level, fostering continuous growth and advancement in their selected areas of study. These programme levels include:

Introductory Programmes – 6(six)-week programmes designed to immerse students in a world of new knowledge and skills. These courses offer a comprehensive introduction to various subjects where they will build a strong foundation and gain a deeper understanding, setting the stage for continued growth and exploration in their chosen field.

Certificate Programmes – 3 to 6-month programmes, these rigorous academic programs are crafted for working professionals or qualifying students aspiring to delve deeply into their chosen fields. Participants emerge equipped with the expertise necessary to launch their careers, utilizing the certification as a valuable credential for securing employment opportunities.

Diploma Programmes – Academic endeavors spanning 9 to 18 months, designed for students initiating formal studies in a specific field to acquire practical skills and knowledge. Often serving as a direct route to entering the workforce, participants in this educational pathway can subsequently advance towards earning graduate degrees in their chosen field.

Associate Degree – A 2 to 3-year undergraduate programme providing foundational knowledge in a specific field, offering a practical and efficient pathway to entry-level career opportunities or further academic pursuits.

Bachelor's Degree – 2-to-3-year programme. These graduate programmes offer a comprehensive educational experience, providing students with a thorough grasp of their chosen field, encompassing theoretical foundations, practical application, and managerial aspects.
